

STOMACH ACTS FINE!
NO INDIGESTION, GAS,
HEARTBURN, ACIDITY

"Pape's Diapiesin" Fixes Sick,
Sour, Upset Stomachs in
Five Minutes.

You don't want a slow remedy when your stomach is bad—or an uncertain one—or a harmful one—or an uncertain one—or a harmful one—your stomach is too valuable; you mustn't injure it with drastic drugs. Pape's Diapiesin is noted for its speed in giving relief; its harmlessness; its certain, unfailing action in regulating sick, sour, gassy stomachs. It's quick relief in indigestion, dyspepsia and gastritis, when caused by acidity, has made it famous the world over.

Keep this wonderful stomach sweetener in your home—keep it handy—get a large fifty-cent case from any drug store and then if anyone should eat something which doesn't agree with them; if what they eat lays like lead, ferments and sours and forms gas; causes headache, dizziness and nausea; eructations of acid and undigested food—remember as soon as Pape's Diapiesin comes in contact with the stomach it helps to neutralize the excessive acidity, then all the stomach distress caused by it disappears. Its promptness, certainty and ease in overcoming such stomach disorders is a revelation to those who try it. (adv)

UNCLE SAM WANTS SEVERAL "TYPEWRITERISTS."

Immediate steps will be taken by Paris civil service officials to round up all stray typewriter operators and stenographers who are "at liberty," or who would like a change from their present positions, to go to Washington and work for Uncle Sam in the departments engaged in carrying out the great war work program. Ten thousand operators and stenographers are needed at once.

Entrance salaries range from \$1,000 to \$1,200 per year, according to the efficiency of the applicants. Mr. Wm. Clark, local civil service secretary, said, with an opportunity for reasonably rapid promotion for those whose services prove satisfactory. Mr. Clark added that while examinations are now being held weekly in many different parts of the country, arrangements can easily be made to hold a test at any accessible place and at any time where a small class of applicants can be had.

The Civil Service Commission at Washington has notified each of its 2,000 examination boards that they should put forth their very best efforts to secure these urgently needed workers, as early as possible. It is understood that when an applicant is passed he or she will be sent immediately to Washington and assigned to one of the government departments. Both men and women are eligible for examination.

Any Paris operators or stenographers to whom the proposition appeals can secure any information desired from Mr. Wm. Clark at the Federal building.

OF INTEREST TO AUTOISTS

Tire neglect in winter is responsible frequently for absolutely unnecessary purchases in the springtime and inasmuch as economy is now foremost in the minds of all motorists, the millionaire as well as flivver owner, the B. F. Goodrich Rubber Company gives the following suggestions for tire care during the winter months:

"Tires should be removed from wheels and outside of the castings washed with soap and water to remove all traces of oil. Injuries should be looked for; repairs made if any are needed. The tires should be laid flat in a cool, dark room after being wrapped in clean cloths or preferably black paper.

"Tubes should be taken out of castings, slightly inflated and also laid flat in a cool, dark place with no weight on them.

"If the tires are not removed from the wheels, jack up the car, leaving only enough air in the castings to keep the tire tight and in shape. Cars should not be left for any considerable period of time without jacking up the wheels as the prolonged strain on the tires tends to stretch them and develop weak places in their structure."

The Liberty Loan went over the top—way over.

JAPANESE ENVOY PRAISES THE AMERICAN NEWSPAPER.

Newspapers of the United States were praised for their loyalty to the government in an address by Baron Megata, head of the Japanese mission in this country, at a luncheon of the Japan Society of America at San Francisco. However, some papers in both Japan and the United States have lent themselves, probably unconsciously, to unfriendly propaganda, he said. He urged a better understanding between the countries.

CAN'T OWN CATS.

A recent novel decision of the Department of Justice relates to the legal status of the cat. The inquirer wished to know if a cat can legally be considered property. The Attorney General's office, after ascertaining from the Century Dictionary that a cat is "a digitigrade, carnivorous quadruped of the family Felidae," and also "a gossip, meddlesome woman given to scandal and intrigue," replied that assuming the former type of cat to be in question, a cat is an article of property only in Connecticut. In other States a dog, deer or corpse may be property, but so far the court records seem to have practically ignored the cat. In view of certain kinds of cats being considered of decided value by their owners, the Attorney General is of the opinion that in the future the cat will be given the right by the courts to be considered property.

WRITE ON ONE SIDE OF PAPER ONLY.

THE NEWS desires to again admonish contributors to its columns to write on one side of the paper only. This applies to advertisers' copy, as well as the news articles.

It has been mentioned so often in print that "copy" for newspapers should be written on one side of the paper only, that it was supposed everybody knew the rule. The rule is so well established in newspaper offices that no one ever thinks of looking on the reverse side of a sheet unless the word "over" appears at the bottom to call attention to it.

But the safest and only way is to write on one side only. Observance of this rule will do away with much annoyance, and possibly loss on both sides.

AS TO THE INCOME TAX.

Individuals having net incomes subject to tax for this year, are not required to file returns for the year until between January and March of next year, according to a statement prepared and made public by Collector of Internal Revenue Haley, of Lexington, for the purpose of correcting erroneous reports which have become current in Lexington and other points. Mr. Haley says: "Individuals having net incomes subject to tax for the year of 1917 are not required to file returns for the year ending December 31, 1917, until at some period between January 1, 1918, and March 1, 1918."

NEW CONCRETE HOUSE.

Concrete as a building material goes through many forms and phases. Not long ago interest was centered on Mr. Edison's proposal that concrete houses could be built very rapidly and cheaply by pouring the material into standard moulds. A later development consists in building the concrete house by moulding the concrete into planks and joists, and using them in much the same way as wooden planks. It is said that this method is less expensive than the block system. The "planks" are re-enforced with steel wire, and the floor joists with steel bars. The projecting bars are used to lock the parts together, instead of nails.

Finishing a Telephone Talk

It is always good practice to close your telephone talk by saying "good-bye."

If you hang up the receiver without doing so, the party to whom you are talking may continue to talk or at least remain at the telephone, wasting his time and keeping the line from being used by somebody else.

The "good-bye" at the end of a telephone talk is an infallible signal to hang up the receiver without delay—it terminates the telephone talk graciously and effectively.

When you telephone—smile!

F. O. B. DETROIT

There are visions—now and then—in business and industry.

The Maxwell motor car is a wonderful vision that has been made real.

The fixed purpose of the Maxwell builders was in the beginning, and is now, to produce a car which would be, in the highest sense, efficient, durable, economical, comfortable and standard in equipment.

Many years experience in production on a vast scale has taught the Maxwell manufacturers two things.

One is that such a car as they have always made their aim—a car in which efficiency, durability, economy, comfort, beauty and standard equipment are all present—cannot be built for less than \$745, with materials at their present prices.

The other lesson is that, for more than \$745, they could not give you anything more than the Maxwell now has—except greater size or luxuries, pure and simple.

In other words, they are convinced—and they have convinced us—that they have found the great MIDDLE LINE where you get dollar for dollar in ABSOLUTE VALUE.

CAMOUFLAGE.

In the practice of war time "camouflage" man is learning to emulate nature in devising color schemes that are inconspicuous. Just as the spotted coat of the leopard, which seems so striking in a cage, blends with the dappling of sunlight and shadow in the jungle, so a new way of painting ships with spots makes them almost invisible against the contrasted lights and shadows of a tossing sea.

THE Beautiful - Gulf - Coast!

Gulfport, Miss.

Mississippi is a land of romance and interesting history, and she has furnished some famous men who have had spectacular careers. Mississippi was found by old world explorers to have a fine climate and many fascinations. Two centuries ago DeSoto, Joliet, Marquette, Iberville, Bienville and LaSalle had a "vision" of the civilization of Mississippi of to-day. Mississippi has had one hundred years of statehood and she expects to celebrate her centennial near Gulfport in 1919.

At Gulfport is a railway pier extending one mile into the Mississippi Sound. It gives dockage facilities to foreign vessels and makes the harbor a gateway to the interior of the State, and south to the Panama Canal region. Gulfport is thus famed, together with its land connections along the line of the Louisville & Nashville Railroad for its accessibility from and to all points north, south, east and west.

The city of Gulfport has attractive homes, fine churches and schools, and an aggressive, wide-awake people. She has also about her fruit lands and garden, spots for the settler from the north. She has in her Great Southern Hotel a fine up-to-date hostelry. Gulfport is on the beautiful shell road also, that extends for miles along the edge of the Sound.

A Legally GUARANTEED CURE
Think of it, Mr. Farmer, here's a remedy for hog cholera that is sold under a "Legal Guarantee Bond." How can you afford to take chances against hog cholera when you can get this remedy on such terms?
Bourbon Hog Cholera Remedy
It is the only remedy ever put up that is guaranteed to cure and prevent hog cholera. It does the work better than any other known remedy, or it would not be sold on such a strong guarantee. Quart, \$1.00; Gallon, \$3.00. At All Druggists.
BOURBON REMEDY COMPANY, Lexington, Ky.
